

Camcorder

PRODUCT HIGHLIGHTS

- 52x Optical Zoom
- 2.7" LCD
- Smart Background Music

52x optical zoom brings your world up close.

For those who want the creative flexibility and freedom of a 52x optical zoom, there is the F50. Combine its long battery life with a 16GB SD card (sold separately) and you can capture distant action with remarkable clarity for six hours and 20 minutes. Then add background music, courtesy of the Smart Background Music feature, to turn your movie into a masterpiece.

F50 Camcorder

SPECIFICATIONS

2.7" LCD (230k)
52x optical, 65x Intelli-Zoom

VIDEO FEATURES

Intelli-Studio 2.0 (built-in PC S/W): Plug into any PC via USB – built-in advanced editing software lets you play, edit and share files.

1/6" 680k CCD

Time-lapse recording: Stills taken at preset intervals are put together to create a video that speeds up the slow passage of time.

Smart Background Music: Add music to your movies without overwhelming the words. The Smart Background Music feature lets you add one of the preloaded soundtracks to your video. If the system senses someone is speaking, it automatically lowers the volume of the music.

Record Pause Function: Pause while recording, yet still create one continuous file for easy uploading to social networking sites.

CAMERA FEATURES

1.9 Megapixel photo

Smart Auto: Camcorder can recognize the current scene and automatically adjusts AE, AF, AWB to ensure the best shooting.

Face Detection: The Face Detection feature automatically focuses on each face in a scene, optimizing facial brightness for added clarity.

CONNECTIVITY

USB charging: Charge the camcorder battery via USB port or DC jack. When the DC adaptor is not available, just use the USB cable.

SDHC/SD card slot
